

## The HR Matrix Talent Network™

### A Job Angel Network for Displaced Workers

To be pro-active in these difficult times, the HR Matrix has partnered with **JobScore** to create a new Talent Mapping program called the **HR Matrix Talent Network**. We're invested in creating programs that will create Economic Vitality for the North Bay. We're committed to helping displaced employees find new jobs within our community.

Candidates can submit their resume online and employers can source candidates directly. This is a win-win-win solution for companies seeking talent, and will allow displaced workers to remain in our community. Employees and Employers can link to the HR Matrix Talent Network at

<http://thehrmatrix.jobscore.com>

### Recruitment Services

The HR Matrix has created a unique approach to the search process. We provide client companies the opportunity to “unbundle” the recruitment process in order to find Top Quality Candidates at Affordable Costs.

There are 2 ways companies can engage recruiting services at The HR Matrix:

- Unbundled services - choose parts of the recruitment process you want to outsource
- Bundled service - full search process (A-Z)
